## Fuel Management

*Manage your community's fuel delivery program with this comprehensive software*

### Software Highlights

- Four different fuel rate scales are available: Residential, Business, Government, and Other
- Service charges and/or late payment fees may also be entered
- Enter the number of litres of fuel delivered and the software will automatically calculate the amount due
- Issue detailed invoices for one client or for all clients with one click
- Record payments made and issue receipts
- Allows for modification or deletion of amounts entered and of payments made, if required
- Generate a variety of reports for a client or for all clients
- Program is compatible with Windows XP, Vista, Windows 7, 8, 8.1, and 10

### Reports

- Generate an Individual Customer History report which details all invoices issued, including litres delivered, and payments listed by month
- Generate a Customer Balances report showing current balances owing by customer type
- Generate a Revenue Report that details the litres delivered, the cost per litre, the total cost per delivery, as well as any service and late charges by customer type for a specific date range
- Generate a Consumption Summary showing the litres sold, the revenue generated, the amounts paid on accounts, and the receivables outstanding for all customer types
- Generate a 12 Month Summary that details the litres sold, service charges, late payment fees, amounts paid, and the balance forward amounts for a year for all customer types
- All reports can be previewed, printed, or saved as a PDF document
